

Comfy Cabins

Cabin Plans. Cabin Kits. Cabin Done!

How The Process Works:

Review available models and choose your favorite.

We have many more available if you do not see one that is right for you. Also, all models can be customized to your liking.

Contact us to have a Building Consultant guide you through the remaining steps.

Call 1-866-618-6564, or email info@naturalelementhomes.com, or use our website Contact button.

Determine any changes you wish to make to the home design and materials package.

See our Standard Package Contents and our Options and Upgrades for more info. Discuss with your Building Consultant.

Get an estimate of the cost of changes desired.

We are happy to estimate the cost or savings of your plan and materials changes for you.

Execute Purchase Agreement with 10% initial payment.

All payments to initiate design are fully applied to your package purchase and are non-refundable.

Begin design phase to incorporate your plan and package changes into the home plans.

Simply mark your plans to indicate desired changes and submit with your order. We will make the changes and review with you.

Work through Virtual Design Center sessions (or in person) until revisions are complete.

We will set an appointment with you to view your home in 3D and make additional tweaks and specifications in real-time.

Get revised materials package specifications and pricing based on new plan.

Once your new plan is complete, we will account for all plan and materials changes for you to determine final price and spec's.

Make your 40% manufacturing payment.

You may schedule your package delivery once payment is made (approximately 6 weeks ahead of desired delivery date).

Receive your final plans and license to build and begin construction of foundation.

Once you are scheduled for manufacturing, we will produce final construction plans so you may start your foundation.

Your Comfy Cabin Kit will ship, and your final 50% payment is made.

Your materials package will ship as scheduled, and final payment is due upon shipment.

Your selected builder will receive and install your Comfy Cabin Kit and complete construction.

We will support your builder through installation should he have any needs. It won't be long now!
